ALLEY DIAGRAM — APPROXIMATE LAYOUT (NORTH UP)

[illegible]

KEY MEASUREMENTS

Reference Point A–B	Description	Distance
Bourbon St. gate → Victim (★)	East along alley, north wall side	28 ft
Victim → North wall	South to north, perpendicular	6 ft
Victim → Staff door (Rusty Anchor)	East along alley	4 ft
Staff door → Alley camera mount	East along north wall	6 ft
Alley camera → East end (Conti alley)	East remaining distance	51 ft
Bourbon St. gate → East end	Total alley length	95 ft
Alley width (uniform)	North wall to south masonry	12 ft
Secondary spatter trail start	West of victim along alley	8 ft
Shoe impression	From victim right ribcage (north)	6 in
Darnell Washington doorway	North wall, east of camera	~30 ft from Bourbon gate

CAMERA COVERAGE NOTE:

The alley camera covers approximately 40 feet of alley from the camera mount eastward toward Conti Street. The body was located approximately 28 feet from the Bourbon Street gate — WITHIN the camera's field of view. The 22-minute gap in footage (1:15 AM – 1:37 AM) therefore obscures the critical period during which the assault occurred. The staff door (through which victim and suspects exited) is at the near western edge of camera coverage.
