[BEGIN TRANSCRIBED STATEMENT]

I am Officer James Martin, Badge 3318, Eighth District. I'm providing this statement regarding the homicide call at 712 Bourbon Street on October 4, 2025.

I was two blocks south on Bourbon when Officer Thibodaux arrived at the scene. I arrived at approximately 2:49 AM. Thibodaux had already established an inner perimeter and was speaking with a Black male in a doorway — later IDed as Darnell Washington. She briefed me in about thirty seconds and asked me to take the outer perimeter.

I managed the outer perimeter at the alley entrance on Bourbon Street. A small crowd had gathered. The French Quarter on a Friday night means there's always people around, especially at that hour. People are stumbling out of bars, most are intoxicated. No one approached me claiming to have witnessed anything. I asked several bystanders — most said they had just walked by.

Thibodaux had radioed about three white males who fled. I did not personally see those individuals. By the time I arrived, the described individuals were not visible. I queried two or three bystanders about whether they'd seen three men come out of the alley — one woman said she might have but couldn't be sure. She was intoxicated and I did not take a full statement.

I maintained perimeter until Crime Scene arrived at 3:41 AM. EMS Unit 14 had arrived before me. The paramedic — I believe her name was Sandra Joubert — pronounced the victim at 2:57 AM. She and her partner did not touch anything after confirming death and waited for instructions.

At approximately 3:00 AM I was notified via radio that a Ryan McCall had been found sitting in a silver Malibu on Conti Street, two blocks over. The unit that found him noted he appeared nervous and had what looked like minor scuff marks on his forearm. He was detained for Detective Broussard at approximately 3:05 AM. I did not make direct contact with him.

My role was scene security. I have no additional information beyond what is documented. Everything I observed is consistent with what Officer Thibodaux reported.
